

## Micro Finishes

- Polished Concrete Effect
- Easy to Clean
- Extremely Smooth Finish

An upcoming trend for domestic applications, this versatile floor covering creates clean lines and a classical European finish.

## Contemporary, Elegant and Durable

Great for crafting a range of effects including a totally smooth, joint less floor and mimicking polished concrete with the added security of a guaranteed flawless finish.

### Key Features

- Durable
- Hand Finished Unique Floors
- No Joints
- Stain resistant
- Smooth

## Incredibly Versatile

*Micro Finishes aren't just for floor finishes. They can be also be used on walls, stairs and worktops.*

## Benefits of Using Micro Finishes

- Just add water mix – the polymer is already in the bag so there is no need to measure out separate liquid additives, saving time and errors
- Easy to apply - creates a smooth finish with very little effort
- Sold as a white base that can be custom coloured – integrally or topically
- Wide range of colours with endless possibilities
